

HOW TO MAKE A BALLOON SWORD

- 1** Inflate the balloon leaving 2 1/2 inches at the end of the balloon.

- 2** Starting at the nozzle end fold the nozzle end towards the tail by about a hand and a fist (8-10 inches). Right where the nozzle is you're going to fold up into a zig-zag.

- 3** Hold the middle of your zig-zag with both hands and squish. Then twist the long bubble around the top loop 3 times to make the sword!
